EADER

Industrial machine with cabinet protection and replaceable pallets

cifications

Radiation source	Fiber laser (IPG Photonics / Raycus)
Minimum cutting width, µm	100
ositioning accuracy, mm	±0.05
Travel along X, Y axes	Helical rack-and-pinion / Linear moto rs
Travel along Z axis	Ball screw
ynchronous speed of idle movemen ts along the XYZ axes, m/min	p to 120
celeration along the XYZ axes	p to 2.5
ling type, mm	0.02
ource power, kW	2–60
Processing field, mm	2000x6000
tical head	BOCI, raytools
