Arrays for remote pumping of fiber amplifiers

cifications

Item No	LS-AD4
Laser operating mode	CW
Pulse repetition frequency, kHz	p to 100
Pulse duration, μs	250
Output power density, kW/cm²	≤ 8
Radiation wavelength, μm	770–980
Size of the glow body at the homoge nizer output, mm	5 x 5
Residual heterogeneity, %	< ±5
