

SMART ROUND

Five-axis laser machine for rotary cutting

Specifications

Radiation source	Fiber laser
Source power	150/1500; 300/3000; 450/4500
Overall dimensions of the workpiece, mm	Diameter up to 300 Height without equipment up to 270
Workpiece wall thickness, mm	up to 4
Roughness of machined surfaces	Ra 6.3
Accuracy, mm	0.03
Drives	HIWIN
Cooling type	Water / Air
Processed sheet materials	Brass, stainless steel, black steel, copper, aluminum, aluminum alloys, gold, titanium, diamond coated materials, ceramics, paronite, stone
