SMART TT

utting machine with solid-state laser

cifications

Radiation source	olid-state laser (LASSARD)
ource power	500; 750
Processing field, mm	1500x1500
ositioning accuracy, mm	±0.05
Linear movement	Ball screw
Processing speed, m/min	p to 60
celeration along the XYZ axes	p to 1
Processed sheet materials	Metally_i_splavy, stainless steel, bla ck steel, copper, aluminum alloys, gol , titanium, diamond-coated materials, ceramics, paronite, stone
